

## Sheppard Jury Expected To Reach Verdict Today

CLEVELAND (AP)—The Sheppard murder trial jury ended today's morning session still wordless, but hope persisted in the courtroom that this will be "V-day"—the day of the verdict.

The jury has had the case 100 hours with actual deliberations of 36 hours.

### More Time Requested

Although jurors gave no sign again, when they appeared in the courtroom prior to being excused for lunch, optimism continued for a decision today. It was based

mainly on the fact that in answer to Judge Blythin's question Monday night, they requested more time.

Dr. Sheppard, an osteopath, is on trial on a charge of murdering his wife, Marilyn. The state alleged he had "other women" trouble. Sheppard denies the crime, and says he surprised a prowler who knocked him unconscious after killing Mrs. Sheppard.

As the fourth day wore along, the six lawyers—three on each side—who argued the facts for nine weeks, suddenly appeared in the courtroom and immediately went into a conference with Judge Blythin in his chambers. When they came out, some said, "No comment . . . Can't say anything."

### Lawyers Surprised

It was learned on firm authority, however, that the jury would be asked, by 10 o'clock Monday night, whether there was any hope of breaking the obvious deadlock. Another informant told news-men, after the jury had gone to the hotel for the night, that the question did go up, and that an oral answer came back from the jurors—they want to try again today.

Under Ohio law, a judge may ask the jurors, in open court, whether there is any hope of arriving at a decision.

But Judge Blythin has not done

Dr. Sheppard

this. He said Monday he did not intend to "interfere" with their deliberations. And in effect he denied that any communication went to them Monday night.

The lawyers seemed flabbergasted when the judge merely ended the jury's fourth day of discussion on the case. One said, "I just don't know what's going on where we go from here."

## Draft Age Goes Up But Quotas Are Being Cut

WASHINGTON (AP)—The average age of men now being drafted in 35 states is 21 or over. An Associated Press survey of state draft directors showed today.

In 18 states, the average is 22 or over and in 5, over 23. Minimum legal draft age is 18½.

As in the past, draft directors are taking their older men first in the quotas given them by national draft headquarters. The quotas are based on the total number of men each state has available for service.

### Filled By Volunteers

Quotas recently have been relatively small—about 20,000 a month—and a high percentage of state quotas has been filled by volunteers, mostly men 20 or under. This has tended to push upward the average age of men called involuntarily.

The state draft directors were questioned before Monday's announcement by Secretary of Defense Wilson that draft quotas, starting in February and running at least through June, will be approximately halved. Wilson said the quota of 20,000 which had been fixed for February will be cut to 10,000 or 11,000.

This action can be expected to push still higher the average age of men called without their consent.

### Youngest In Wisconsin

The survey of state directors showed that South Dakota has the highest average draft age—between 24½ and 25 for men being called involuntarily. One reason is that South Dakota has been able to fill from 80 to 95 per cent of its draft quotas recently with volunteers.

Wisconsin and Utah appear to be taking the youngest men. Both states are filling their quotas with 20-year-olds and Wisconsin took some 19-year-olds in October.

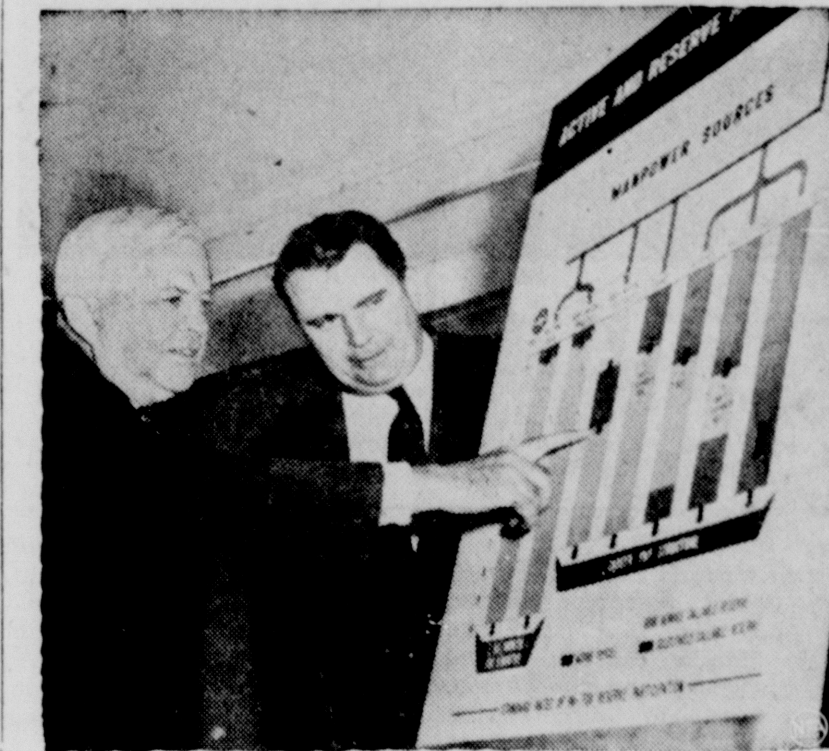

State directors' replies to the survey on average draft age and volunteers included:

Illinois—23, 67 per cent; Indiana—22½, 50 to 60 per cent; Iowa—about 21, 50 per cent; Kentucky—22 to 22½, 30 per cent; Michigan—20½ to 21, 75 per cent; Missouri—22 to 23, about 38 per cent; Nebraska—22, 100 per cent, except December.

## Windshields Watched

DETROIT (AP)—Motorists too lazy to wipe their dirty or frosted car windows will get tickets in Detroit during the rest of December. Traffic Director James A. Hove added that if such motorists are involved in even minor accidents, they are to be arrested on the spot for reckless driving.

# U.S. Military Manpower To Be Cut By 403,000

C., of the new proposal to build a defense force of 5,000,000 men under proposed National Military Reserve Plan. (NAE Telephoto)

## General Who Said 'Nuts' To Nazis Will Command U. S. Forces

WASHINGTON (AP)—Lt. Gen. Anthony C. McAuliffe, the combat leader who 10 years ago said "nuts" to a German surrender demand at the Battle of the Bulge, is going to become commander of U.S. Army forces in Europe.

The Army announced Monday that McAuliffe will succeed Gen. William M. Hoge, who will retire next month.

McAuliffe, 56, commanded the 101st Airborne Division late in 1944. He will be succeeded in his present post as head of the 7th Army in Europe by Lt. Gen. Henry I. Hodes, present commander of the 7th Corps.

## Peace Outlook Improved, Says Defense Chief

WASHINGTON (AP)—The military services have been told to start pruning 403,000 from their present over-all strength to reach the 2,815,000-man level the administration thinks is about right for the current cold war.

In disclosing a manpower cut-back program Monday, Secretary of Defense Wilson said it will be accompanied by a 50 per cent slash in draft calls starting in February, when he announced quota of 20,000 is to be dropped to 10,000 or 11,000. Quotas have been running about 20,000 for many months.

### Airforce Builds Up

Wilson said an improved situation in the Far East and "better opportunities for peace" everywhere entered into President Eisenhower's decision to trim the services.

Only the Air Force, which will continue its gradual buildup to 975,000 men in the next 18 months, escapes the trimming.

### Army Drops 25 Per Cent

In the same period—that is, by June 30, 1956—the Army will drop 25 per cent of its current strength to level off at an even one million. The Navy is down for a 6 per cent cut from present strength to reach 650,000 and the Marine Corps will drop 14 per cent to 190,000. Over-all strength for all services last month was 3,218,000.

There was no immediate reaction from members of Congress, but the decision seemed likely to stir some controversy. A number of Democrats have complained that the nation's military might is already dangerously weak.

The new program calls for the early return home from Korea of the 1st Marine Division and the eventual move of one regiment of the 3rd Marine Division from Japan. Some of the slack will be taken up temporarily by the shift of an Army division, one of two now in Japan, to Korea. The net result of these moves will be to leave the equivalent of four American divisions in the two Far East nations. The Army will continue to keep the equivalent of six divisions in Europe.

The Army will decide whether it can maintain its division total now 19, under the cutback. Wilson said the Navy might have to lay up a few ships and man the remaining ones with fewer men.

## Democrats Shun McCarthy Fight

WASHINGTON (AP)—Two Democrats said today they expect their party colleagues to keep hands off any Republican move to unseat Sen. McCarthy (R-Wis.) as a member of the Senate Investigations subcommittee.

Sen. Select Clifford Case (R-N.J.) has announced he will attempt to keep McCarthy off the inquiry group McCarthy headed in the GOP-controlled 83rd Congress. Case has said he will demand a roll call on the question when Congress meets next month.

Senators Romney (D-Okla.) and Sparkman (D-Ala.) said in separate interviews they regard McCarthy's committee assignments as "strictly a Republican problem." They forecast that Democrats will support any recommendations the conference of all Republican senators makes.

## Chinese Reds Driven Off In Bombing Raid On Tachen Islands

TAIPEH (AP)—Chinese Communist planes tried to bomb the Tachen Islands today but were driven off, the Nationalist Defense Ministry claimed.

The ministry said seven Red planes dropped more than 10 bombs. It said they missed their mark and plunged into the sea, causing no damage.

The ministry also said Communist planes made 18 sorties in the Tachen area, some 200 miles north of here, Monday. They "fled when Nationalist antiaircraft guns opened up," the ministry said.

## Income Taxes May Be Eased Slightly By Next Congress

Editor's Note—A new Congress, controlled by Democrats, meets Jan. 5. The Associated Press asked the members in advance for their views on various issues, and 128 of the 531 replied.

WASHINGTON (AP)—Incoming members of Congress show some inclination to reduce individual income taxes by raising personal exemptions — and stop right there with tax cuts.

A majority of senators and House members taking a definite stand in an Associated Press poll favors higher personal exemptions. But the margin is less than 3 to 2 among the 128 members replying. And even should the 84th Congress decide to ease up on taxes on individuals, it may wait until 1956.

Among lawmakers responding to the questionnaire, there is heavy bid to postpone again a reduction in the corporate income tax now set automatically for April 1. There is somewhat less enthusiastic backing for his request to put off a cut in excise sales taxes scheduled for the same date, but enough to indicate Congress may go along on a bipartisan basis.

The picture on both corporate and excise taxes could change, since many lawmakers still aren't committing themselves on them. Congressional opinion at this point appears to be weighed against any major changes in the massive tax revision law passed last summer and against amending or repealing a controversial cut in the tax on dividends.

The poll produced replies from 128 of the 531 members of Congress, from 41 of the 48 states.

The administration now expects to run nearly five billion dollars in the red during the present fiscal year. It figures that government spending will exceed income by around three billions in the next fiscal year starting July 1.

MORRISTOWN, Pa. (AP)—An almost blind teen-age boy, who police said made his way through three states to his mother's home here while he was being sought in connection with the slaying of his father in West Virginia, was being held today after surrendering to authorities.

Police Chief Robert Reilly said William Hallman, 18, was turned over to him Monday night by Robert Honeyman of Norristown, the boy's lawyer.

Reilly said Hallman had wandered through West Virginia, Pennsylvania and New York before arriving at his mother's house in this eastern Pennsylvania city. Then, police said, he telephoned Honeyman and surrendered.

Mrs. Hallman's house had been under surveillance since 43-year-old Albert Francis Hallman was shot and killed early Sunday as he lay asleep in his Nitro, W. Va., home. Police said the boy somehow managed to sneak into the Norristown dwelling despite the police watch.

Reilly said Hallman surrendered because "he couldn't get along by himself with his affliction."

Mrs. Helen Fekety Scudder, 35, told police in Nitro the youth shot at his father five times, then reloaded and fired at her as she fled the house. Officers quoted Mrs. Scudder, who said she had been living with the elder Hallman for the past eight years, that there had been no argument before the shooting.

The woman was wounded in the head and arm but her condition was reported "satisfactory."

## Slaying Denied; Youth, 19, Says Police Beat Him

LARENDON, Ark. (AP)—The 19-year-old transient charged with the slaying of Mrs. Milton Fuller said he admitted the killing only after he was beaten by police, but his statement brought denials from officers.

Billy Ray Willingham, of Florence, Ala., has been charged with first-degree murder in the death of the 25-year-old Brinkley, Ark., mother of two children, brutally beaten in her home Dec. 12. He was arrested Friday.

He told an Associated Press reporter in an interview Monday night at the county jail here:

"I didn't kill that woman. I just told them that I did to get it over with."

Asked what he meant by getting "it over with," Willingham replied:

"One of the policemen hit me on the head with a slapper, and another one slapped me a couple of times."

Willingham told his story of hitting the sleeping woman with a five-pound stick of hickory firewood to police and newsmen early last Sunday.

Prosecutor J. B. Reed, Sheriff H. K. McKenzie and Police Chief Frank Henderson all denied Willingham was struck either by themselves or any other person.

## Mink Burglars Make \$175,000 Haul In Detroit

DETROIT (AP)—Burglars, escaping an alarm system trap after cutting through steel window bars, made an estimated \$175,000 haul in mink coats and jackets from a downtown fur store Monday night.

The robbery, one of the largest of its kind in police history was at E. C. Dittich & Co., at Grand River and Third. Fifty mink coats and jackets comprised the loot.

A window alarm system was set off during the burglary but the thieves were gone before alarm company operatives arrived at the store.

The company said 23 mink jackets and 27 mink coats were taken. Their retail value was placed at \$175,000. All were insured.

Police immediately notified authorities throughout the United States and Canada to watch for attempts to dispose of the furs.

The burglars apparently backed a truck to a rear window, then cut through 12 steel bars at the base and bent them upward in order to make entry to the store stockroom.

## Cadillac-Soo Co. Dividend Stands

GRAND RAPIDS (AP)—Sewell Avery, millionaire Chicago financier and ruler of the vast Montgomery Ward Co., gave up a lengthy court suit against the Cadillac-Soo Lumber Co. Monday.

Federal Judge W. Wallace Kent entered a consent decree for Avery dissolving a temporary injunction he had obtained to stop payment of dividend to stockholders of the lumber company.

Avery, Montgomery Ward board chairman, was voted out as president of Cadillac-Soo at a directors meeting last June.

His suit against the company asked that a dividend declared by the board last July 14 be declared illegal and that the company directors be required to refund the dividend to the company.

Avery had contended that the dividend was not an earned surplus but represented the board's way of liquidating assets.

The decree yesterday permits the challenged dividend to stand and expressly permits present company directors to declare an additional dividend before the end of the year.

It also provides that more dividends may be declared after the end of the year under a liquidation plan to be adopted by the firm.

## No Disasters Today; Doom Prophets Say Earth Has Been Saved

CHICAGO (AP)—A prophet of doom who had predicted cataclysms would engulf the continent before midnight said this morning there will be no disaster today.

Mrs. Dorothy Martin, who had predicted tidal waves would sweep over much of the land between the Arctic Circle and the Gulf of Mexico, said that by "intervention on the part of the God of earth disaster has been stayed."

Mrs. Martin said she and 13 of her disciples, in her home in suburban Oak Park, "had sat for the Father's message the night through and God has spoken."

"Not since the beginning of time upon this earth has there been such a force of good and light as now floods this room and that which has been loosed within this room now floods the entire earth,"

Mrs. Martin said in a statement.

Dr. Charles A. Laughhead, who lost his job on the student health staff of Michigan State College by acceptance of Mrs. Martin's prophecy, was among the 14 at her home throughout the night.

Mrs. Martin said the "Father's message" had been received by "two forces."

In her statement she said:

"For this day it is established that there is but one God of earth and He is in thy midst and from His hand thou has written these words and mighty is the word of God. And by His word have ye been saved, for from the mouth of death have ye been delivered."

Mrs. Martin's prophecy had called for the destruction of Chicago. She also said the West Coast would be submerged from Seattle to Chile. Dr. Laughhead had said the East Coast would be engulfed, too.

## Changes Sought In Servicemen's Death Benefits

WASHINGTON (AP)—A House committee said today there should be changes in the law which, in thousands of cases, provides a serviceman's survivors bigger benefit payments than the man earned while alive.

In other cases, the group said in a formal report, survivors receive benefits "inadequate to meet their basic minimum needs."

The committee said there are approximately 465,000 cases on the various death compensation rolls, with a normal peacetime addition of 7,000 cases annually and an annual cost of 365 million dollars.

### Five Different Sources

Death compensation, as distinguished from pensions, is paid only to survivors of persons who die while on active duty or from service-connected causes.

The compensation is paid from these sources:

1. A six-month death gratuity with a minimum payment of \$468 and maximum of \$6,857, paid to the next of kin and administered by the Defense Department.

2. A gratuitous indemnity of \$10,000, with payments of \$92.90 monthly for 10 years, usually to

## Befriended Woman Leaves Pair \$400,000

ST. LOUIS (AP)—A man and his wife who befriended Miss Laura K. Seitz have been willed the income from her \$400,000 estate.

Miss Seitz died Nov. 3 at the age of 79. Her beneficiaries are Mr. and Mrs. Joseph McIntyre.

The 68-year-old McIntyre said yesterday he and his wife had made themselves available to help Miss Seitz and her late mother for 46 years, caring for them in sickness, providing companionship on trips and taking them for drives.

## Mississippi Votes On Law To Abolish All Public Schools

JACKSON, Miss. (AP)—Mississippi voters today decide whether the threat of abolishing public schools is the way to keep Negroes out of white classrooms.

Up for voter approval is the proposed constitutional amendment giving the Legislature power to abolish public schools. Lawmakers passed the amendment to get around the U. S. Supreme Court ban on school segregation. A majority of votes cast would ratify the measure.

Amendment sponsors contend the loss of public schools would not be too great a price to pay for continued segregation. But opponents argue the amendment isn't necessary.

Both sides agree that segregation must remain in Mississippi

Those opposing the proposed amendment have presented no alternative method for legislative action.

The amendment's highlights include:

1. The Legislature may abolish public schools statewide by a two-thirds vote of members present and voting.

2. The state could provide tuition money for students attending private schools.

3. Public school buildings, buses and facilities could be sold, rented or leased to private individuals or corporations.

Highest of the overnight lows were recorded in the Upper Peninsula. Houghton had 20, Marquette 21; Grand Marais 10, and Escanaba 14. Below the Straits of Mackinac, Jackson had 1; Traverse City, 3; Lansing, 5; Detroit, 9; Grand Rapids, 11; Battle Creek, 14, and Muskegon, 15.

Pocatello, Idaho (AP)—A bandit who took \$30,000 from the Idaho Bank and Trust Co. Monday learned that a garbage can was not a safe hiding place for his loot.

Two small boys told police they saw a man put something into the can—and officers found \$23,890 lying in it loose, hidden only by an overturned paper box.

A six-state alarm was sent out for the bandit.

Police said they were told the trouble started when Charles Carter, 44, waiting for a shoeshine in Cole's establishment, complained about the slow service. To emphasize his dissatisfaction, he whipped out a large hunting knife and waved it around.

Cole grabbed a chair and then went to work, feinting and weaving toward Carter. South on McDonough Street they went, east on Ashland—and up the steps and through the door of the Northeastern Police Station.

Carter was charged with assault and carrying a deadly weapon and sentenced to 90 days in jail.

## Leo P. McDonald And Son Killed In Traffic Crash

LANSING—Leo P. McDonald, 61, former Gwinns superintendent of schools, was fatally injured about 4 Saturday afternoon in a highway crash that instantly killed his son, Kendall, 16.

According to police, the accident happened at Columbia road and US-127 intersection about 10 miles south of Lansing. Police said McDonald was driving. His car collided with a vehicle driven by Mike M. Kils, 21, of Rochester, Mich.

Young McDonald died of a crushed chest and face. The father was taken to General Mason Hospital and later removed to Ingham County Chest Hospital in Lansing, where he died early today.

McDonald retired as school superintendent at Gwinns in 1953 and since has been living in Mason. At one time he was president of the Michigan High School Athletic Association.

Survivors include McDonald's wife, Bernice; three daughters, Mrs. Lewis Negrinelli and Mrs. Bruno Filizetti, both of Gwinns, and Mrs. Ralph Snodgrass of Cincinnati, and a son, Paul McDonald of Lansing.

Joint funeral services are scheduled for 9:30 a. m. Wednesday in St. James Catholic Church in Mason, the Rt. Rev. Msgr. Charles Keating officiating. Burial will take place in St. Joseph's cemetery, Lansing.

The bodies are in the Paul Dunn Funeral Home in Mason.

## Rotary Host To Afflicted Tots

Crippled and afflicted children of special rooms at Escanaba Junior High School were guests of the Escanaba Rotary Club at the club's annual Christmas party for the youngsters held Monday noon at the Delta Hotel.

Rotary President Denis McGinn welcomed the children and their teachers, John A. Lemmer of the Rotary program committee introduced the teachers and their helpers as follows:

Miss Eva Flennstrom, orthopedic teacher; Miss Elizabeth Leiper, sight saving teacher; Mary Edith DeBolt, oral deaf teacher; Miss Cora Feltier, school nurse; Mrs. Lucille Weissert, assistant to the orthopedic teacher; and Mrs. John Gaffin, "Gray Lady" representing the Red Cross volunteer assistants.

The children and the Rotarians were entertained by Happy Harvey of the University of Wisconsin Assembly Service, who presented several piano solos and accompanied the children in singing Christmas carols. Harvey appeared in Escanaba earlier in the day at a Junior High School assembly program.

Rotarians, following annual custom, brought gifts to boys and girls to the meeting. These were distributed to the children by the Rotary program committee, of which Frank Andrew is chairman.

## Kiwanians Entertain Sons And Daughters At Annual Program

Sons and daughters of Escanaba Kiwanis Club members, and a sprinkling of grandchildren, were guests of the local club at their annual holiday party Monday noon.

Fred Johnson was master of ceremonies, and the program included vocal solos by Mrs. Alice Hartbarger; a Christmas reading by Mrs. A. V. Aronson; violin solos by Mrs. Arol Beck, Mrs. F. M. Fernstrom was piano accompanist. Representing the young guests, David Zerbel, son of Kiwanis secretary Clarence Zerbel, expressed the appreciation of the sons and daughters to the Kiwanis fathers.

Group singing was led by Chairman Johnson, with Jack Foster at the piano.

## Pennies Collected

WHAPETON, N.D. (AP)—There are 800,000 pennies in the basement of the Evangelical United Brethren Church here. They've been collected in a "Pennies From Heaven" campaign launched by the church's Youth Fellowship for a million pennies to help pay off the church mortgage.

At least the self-made man never seems to suffer from remorse.

# City Controller Quits Position

Escanaba's city controller for the past five years, Alfred Lawrence of 322 N. 16th St., has submitted his resignation effective Dec. 31 to accept other employment.

The resignation was submitted to City Manager A. V. Aronson, who announced today that he has by letter notified the City Council of the resignation. The city manager said that the position of city controller is open and that he is receiving applications from interested persons.

Lawrence today declined to comment on rumors that he has accepted a job with the state of Michigan.

A graduate of Escanaba High School, Lawrence's home was at Spalding before he came to Escanaba five years ago as city controller. He attended accounting schools in Chicago following graduation. He served as business office manager of a newspaper at Iron River for a time and later was employed in insurance adjusting in Chicago and the Upper Peninsula.

During World War II he served in the accounting division of the Army Medical Corps in Washington, D. C.

He is now secretary of Region 10 (the Upper Peninsula) of the Michigan Municipal League.

# Cub Scout Party Climax To 'Can Of Cheer' Drive

Cub Scouts of Pack 411, Jefferson and St. Patrick's Schools, last night enjoyed a Christmas party at the Jefferson School, climaxing the Cub Scouts "Can of Cheer" drive.

More than five bushels of canned goods (over 350 separate items) were collected by Cub Scouts of Pack 411 to contribute to the Salvation Army for distribution to needy families of the community in Christmas Cheer food baskets.

The party was arranged by Cubmaster Myron T. Austad, who obtained donations as gifts to present to the boys. The boys and their parents sang Christmas carols, accompanied by Mrs. Roy Hebert at piano. Mrs. Karl Gray presented a dramatic reading, "The Littlest Angel."

Refreshments were served by Mr. and Mrs. Austad, and the gifts were distributed by Clarence Larson as "Santa."

Cub Pack 411's "Can of Cheer" container at the Fair Store will remain there through Thursday to receive additional gifts to benefit needy families.

# Malcolm Stonecliff Infant Dies Today

William Eric Stonecliff, four day old son of Mr. and Mrs. Malcolm Stonecliff, died at 9:30 a. m. today at St. Francis Hospital, where he was born Dec. 17.

Surviving the infant are his parents; four sisters, Nancy, Joyce, Joan and Betty, all at home, and the paternal grandparents, Mr. and Mrs. Eric Stonecliff. Mrs. Malcolm Stonecliff is the former Lorraine Hellman.

Friends may call at the Anderson Funeral Home beginning Wednesday at 10 a. m.

Funeral services will be held Wednesday at 4 p. m. with Rev. Karl J. Hammar of Central Methodist Church officiating. Burial will be made in Gardens of Rest Cemetery.

# Kroll Pleads Not Guilty To Charge Of Carelessness

NEGAUNEE — John Kroll, 20, of Wells, sentenced to serve 30 days at the Marquette county jail for headlighting deer, appeared in municipal court Saturday and pleaded not guilty to a charge of carelessness, recklessness, but not wilfully or wantonly handling of firearms, as a result of his alleged firing a round of .30-06 ammunition into Conservation Officer Arthur Saviluo's automobile last Thursday night.

Judge William R. Haupt set bond at \$100, which was posted, and Kroll will be tried by jury at 10 a. m. next Wednesday, Dec. 29. He has engaged an attorney from Escanaba.

# 'White Christmas' Outlook This Week

Occasional snow flurries after Thursday will bring a "White Christmas" atmosphere to Michigan, while temperatures will remain normal for the season.

S. E. Decker, U. S. Weather Bureau meteorologist at Escanaba, reported that the five-day outlook for Dec. 21-26 inclusive for the state will show a slow warming trend Wednesday through Friday, with not much change thereafter. The snow flurries will be little ones—total precipitation will not be more than one-half inch of moisture.

Escanaba and vicinity had moderate temperatures last night compared to a cold snap that sent the mercury to 14 below at Pelston and Cadillac in Lower Michigan over the weekend. It was 8 below at Flint and 3 below at Traverse City.

Sault Ste. Marie was the coldest spot in the U. P. with a zero reading Sunday night.

# WMBV To Build Green Bay Studio

MARINETTE—Plans for construction of complete Green Bay studio facilities for Channel 11 television, WMBV-TV, at the southeast corner of North Madison and Cherry Streets in Green Bay were announced Monday by Joseph D. Mackin, manager of the Marinette station.

Mackin said that construction will begin immediately and should be completed in March. The property recently was purchased by the M. and M. Broadcasting Co., operators of the station, through William H. Denis and Associates of Green Bay. The corner lot is now occupied by the frame building formerly occupied by the First Spiritualist Church.

The new studio will be equal in size and facilities to the station's present television plant in Radio-TV Park, Marinette. The NBC station's tower is located near Oconto, approximately half way between the two studios. The Marinette studio transmits its picture to the tower site by means of the company's own microwave facilities. NBC programs are delivered to the transmitter now by AT&T microwave equipment, which also will carry programs from the station's new Green Bay studios to the transmitter building.

**Cars Collide** — Because of icy streets there have been a number of minor collisions in the city within the past 24 hours, according to city police reports. No one was injured in any of the accidents. Only one ticket was issued, to William Gaffney, 605 S. 16th St., for a defective headlight.

**Driver Ticketed** — Michigan State Police of Gladstone arrested Andrew Rengo, 46, of Rock, for driving while his operator's license is revoked and he is held in jail awaiting arraignment. He was arrested following an accident at 6:45 p. m., yesterday at the intersection of M-35 and County Road 529, when cars driven by Rengo and Edwin Dyberg of Rock, collided. No one was hurt. The cars were extensively damaged.

# City Power Peak Continues Rising

Escanaba's holiday power consumption rate continues to climb, but it is not expected to go much if any higher than last night's new record of 6,105 kilowatts, according to Harvey Germanson, city electrical department superintendent.

The new peak in the use of electricity in the city occurred at 8:45 p. m. The new peak is about 100 kilowatts above the previous record set one evening last week.

Germanson reported that power service was interrupted for about 20 minutes last evening in the 1000 block on the north side of Ludington St.

The cause was a corroded fuse switch cutout, protecting a transformer. The interruption occurred at 5:45 p. m.

# Plenty Of Speculation About Second Term For Eisenhower

INEVITABLY, once the mid-term elections are out of the way, the guessing begins in earnest about whether an incumbent President will run a second time. The game is already going full tilt with Mr. Eisenhower.

Some of the President's enemies, perhaps imagining that the wish makes it so, have stated flatly that he will not seek a second term. They found this conclusion on signs which suggest to them Mr. Eisenhower dislikes his job and is eager to retire to his farm near Gettysburg, Pa.

In recent weeks, however, a number of Republican leaders and a few presidential aids have been saying either that the President will run again of his own volition or his party will compel him to do so. They argue that:

It is the best possible steward for the

middle-of-the-road program he fosters.

Without him, the GOP in 1956 would fall into shattering factional combat which would seriously jeopardize their chances of holding the White House.

Even if such differences did not exist in the party, the Republicans could not possibly find another candidate to match the President's popularity and prospects of winning.

Whether Mr. Eisenhower himself will see it this way, whether he will question these arguments but finally yield to party pressures, or whether he will resist all pressures, no one can accurately say at this moment.

The President lately told newsmen he hasn't made up his mind. There probably is little doubt that his fondest dream is to get up to that farm of his. But he is a man with a strong sense of public duty, and in the end that consideration could be overriding with him.

Certainly if he decides not to run he isn't going to disclose the fact early.

It is political axiom that a President who early removes himself from contention thereby casts away his powerful influence, both in Congress and in party affairs.

Observers believe the issue has been sharpened for the Republicans by the news that Chief Justice Earl Warren has emphatically restated his unavailability for the 1956 nomination. Warren, once a tremendously popular California governor, was being talked of in some circles as the most likely middle-of-the-road alternative to Mr. Eisenhower.

We citizens, not to mention the President himself, undoubtedly will get pretty weary of the speculation on this subject in the long months ahead. But we might as well relax and accept it. It's a guessing game that could go on until June, 1956.

## Words, Wit & Wisdom

By William Morris

"Reading a book about the peacetime navy—ONE WAY TICKET was its name—I ran across a couple of nautical terms which puzzle me," writes a Chicago reader. "For example, I had always understood that the phrase 'scuttle butt' meant gossip or rumor. But in this book occurs the following sentence: 'Kelly had stopped to get a drink at the scut tie butt.' Please explain."

"While you're about it, what's the meaning of this sentence: 'A wisp of black smoke curled from the Charley Noble.' This Noble fellow isn't mentioned again in the whole book. Very perplexing, don't you agree?"

Well, not to an old sea dog like your columnist. Even though my shipboard service was during wartime, the old hands saw to it that the linguistic traditions of the regular navy were preserved and heaven help the landlubber who was heard talking about ceiling and floor instead of "overhead" and "deck." Yes indeed, we were a salty lot by war's end!

"Scuttle butt" does, as you say, mean gossip but originally it meant the lidded cask (scuttled butt) from which the ship's company obtained drinking water. Just as personnel in offices and factories today gather round the drinking fountain to exchange the latest rumors, so sailors since the days of John Paul Jones have clustered at the scuttle butt to pass on the latest hot tip on whether or not the skipper will grant liberty at the next port.

And "Charley Noble?" Well, poor Charley was never intended to figure as a character in the novel you mentioned. Sometime in the shrouded reaches of early maritime history there was a notable ship's cook named Charley Noble. At any rate, so the story goes. What we know for sure is that the smokepipe on a ship's galley is called "the Charley Noble."

Does your youngster greet friends this week with "A cool Yule and a frigid First?" For the translation of this and four hundred other lively expressions from the jargon of today's teen-agers, send a self-addressed stamped envelope to William Morris, THE REAL GONE LEXICON, in care of this paper.

## Try And Stop Me

By BENNETT CERF

When Prince Bernard of the Netherlands was President Eisenhower's guest at a White House luncheon he came away quoting one of the President's favorite quips. It concerned the prominent businessman who was urged by his friends to run for the Senate.

"Good heavens, no!" expostulated the businessman. "The truth alone would beat me—not to mention what the opposition would dig up!"

The nastiest kid on the block had tried to hold out for two successive lessons the dollar his mother had given him to pay his piano teacher. "Try that just once more," threatened the professor angrily, "and I'm going straight to your parents and tell them you have exceptional talent."

Little Amy had always heard that her

father practiced law. One day she asked her mother, "When do you think Papas going to stop practicing and really be a lawyer?"

## The Doctor Says...

### Adhesions Do Not Lead to Cancer, as Some People Fear

By EDWIN P. JORDAN, M.D. — Written for NEA Service

An interesting problem is raised by Mrs. C., who writes: "Although I have recently undergone an operation for removal of an infected gall bladder, the disturbing condition existing prior to this operation still persists. I am told that this is caused by adhesions in the area of my appendix as a result of a hysterectomy performed about seven years ago. Would you please discuss adhesions and what, if any, steps can be taken to treat them?"

ADHESIONS ARE made up of tissue similar to that of an ordinary scar on the skin. Under the microscope adhesions appear as slightly elastic fibers. This is called fibrous tissue and the body tends to respond to any infections or injury by forming it. The response is not related to the particular nature of the damage but is merely one of nature's attempts to heal an injury.

Once formed the adhesions may or may not produce difficulty. The fibrous tissue has a tendency to contract; thus if adhesions have formed around a loop of the intestines, they may draw tighter and tighter, thus preventing the free flow of intestinal contents. This, in turn, can produce symptoms of indigestion and may require an operation to cut

these bands of fibrous tissue and free the partly strangled gut.

WHAT TO DO FOR adhesions depends on where the adhesions are located, what normal structures of the body they surround, and what this contraction is doing to the organs involved.

Some people tend to develop adhesions much more readily than others. This raises a difficult problem because in such people new adhesions are likely to form even after the old ones have been cut or removed. However, surgical methods have been improved so that the number of recurrences of adhesions is greatly lessened.

PINNING THE BLAME on adhesions for vague abdominal distress is likely to be difficult. Sometimes it can be done only at operation when the region under suspicion comes under the scrutiny of the surgeon. Adhesions do not lead to cancer as some people fear, but they cannot be cured by any medicines taken by mouth or given by injection.

In Mrs. C.'s case it is difficult to know what should be done. If the symptoms are severe enough it may be necessary to open the abdominal cavity again to see if the adhesions can be cut, though their tendency to come back is often discouraging.

## Today And Tomorrow

By WALTER LIPPMANN

It is a remarkable fact that in the few weeks since the election the prestige and power of President Eisenhower have risen steeply. This has happened in spite of the fact that the most significant Democratic gains were in the territory where the Republican party is most strongly pro-Eisenhower. Why, nevertheless, is the President's power growing?

Primarily, I believe, because the elections have put an end to his attempts to do the impossible—namely to unite the two wings of his party under his leadership. The Republican Senate Chairmen who, by virtue of seniority alone, controlled the legislative and the investigating committees were not willing to be led by President Eisenhower. They did not feel they had to make any important concessions to him. After the death of Sen. Taft they acted as men not concerned with the future of the Republican party as a national organization.

This attitude of theirs applied not only to measures—such as trade program—but to the President's constitutional prerogatives in the conduct of the Administration and in the choice of personnel in the executive branch of the government. The record of legislative usurpation during the first two years of the Eisenhower administration is the blackest since the days of the Reconstruction. During this time the President himself was in deepening trouble because he could not lead these chairmen nor could he get along without them.

### FREE FROM RESTRAINT

The election has released him from their grip and has solved the problem with which they oppressed him. The President is free to be the kind of President he was chosen to be, the only kind of President he really knows how to be. This is a President representing not a faction, not even a mere party, but that preponderant majority of moderate men and women who are in both parties. The spectacle of Eisenhower associated even at second hand with a campaign to accuse the Democrats of twenty years of treason was as absurd as it was ignominious. The real Eisenhower constituency is measured by the two-thirds of the Senate which voted to condemn McCarthy; they represent and reflect the preponderant American majority.

Thus in the second half of his term Eisenhower has come into the position which is particularly and indeed uniquely his own. This is to be a President who, standing above mere party competition, unites the great mass of the nation. And on what does he unite them? The President said the other day that it was on a policy of progressive moderation. No doubt that is so. But the main issues that really arouse the people are not the legislative proposals. There are no very hot differences over those proposals. The real issues are those of war and peace, national security and personal freedom. These are issues of life and death. The original mission of Eisenhower was to lift these issues out of politics, above the factions, and away from the demagogues and the agitators.

Until last spring Gen. Eisenhower was on the way to being as unsuccessful a President as was Gen. Grant. Like Gen. Grant he was bewildered and helpless in dealing with a government that was usurping his powers. He was retreating before McCarthy. He was failing to defend the Executive branch of the government and to uphold the integrity of his personnel. He was losing control of the conduct of foreign policy and of the very decisions of war and peace. By last spring his position was critical.

### TIDE IS TURNING

The tide began to turn when the Army, to be sure with his rather gingerly support, turned on McCarthy and fought back on the question of who was to run the Army. And this was followed by the President's decision not to intervene in Indo-China. This decision marked the defeat of the war party and the emergence of President Eisenhower as the arbiter of high policy.

There are many signs that the President will now have an easier time dealing with his own party. The pro-Eisenhower half is, of course, more than ever warmly attached to him. There will still be the hard core of the extreme right-wing. But they are no longer in control of any of the crucial committees, the President does not have to appease them in order to carry his measures, and they are left with nothing much more than the right and the power to speak. They have no power to act and not much power to obstruct. For all the great issues of war and peace, of security and freedom, the President now has behind him an overwhelming majority—reflected by at least two-thirds of the Senate.

This accounts for the fact that though the Republicans lost the election, the Republican President is growing stronger. After two years in the wilderness of factional politics, Eisenhower is back home among his real friends.

If you want to find yourself out of the spotlight with your friends, constantly act upstage.

Automobiles that constantly knock need working on—not to mention people.

Escanaba—It is estimated that damages of \$75,000 for alleged infringement of a patent will be filed against the city of Milwaukee. It is claimed the city used a patented system of activated sludge treatment the same as the one used by the city of Escanaba. Escanaba, however, is licensed to use the system.

## Where! Who Said There Was No Santa Claus?

## It's Always Christmas Down In Christmas Village, Florida

CHRISTMAS, Fla. —(NEA)—Here, where it's always Christmas, a staff of a dozen workers has been busy since mid-November handling the village's major export—its world-famous Yuletide postmark.

When the holiday season has ended, more than 300,000 persons—many in foreign countries—will have opened a card or a package which meant just a little bit extra because it was mailed from Christmas, Fla.

And the woman in charge of mailing it to them, Mrs. Juanita Tucker, will be looking forward to 10 calm months in which she can rest her feet and smooth out some jangling nerve ends.

Village Postmistress Tucker, who's held down her job 22 years in a tiny one-room office, has an up-and-down schedule which hits both extremes. From January through October, her 250 neighbors have mailing needs that are fairly small. The pace is relaxed and easy and she handles the job by herself.

Then as the Yuletide approaches, she reigns as the harried boss of one of the nation's busiest spots. Mail streams in from throughout the world, to be stamped with the Christmas postmark and forwarded someplace else. And the office is packed with a dozen helpers, who, due to the limited space, process the mail in shifts.

The volume has increased steadily since 1935, when the hamlet's 100th birthday brought it widespread publicity. The town got its name from a nearby fort which was built in the Second Seminole War and finished on Christmas Eve.

It's a neighborly little spot, known for community spirit. Four different times, in fact, it has won the President's Trophy for the best community display at the Central Florida Exposition—quite a trick in view of its size.

Most of the year-round residents have cattle and citrus groves. What there is of a business center consists of a pair of filling stations, two gift shops, the post office, church and school.

Parcels of mail come in from such distant spots as Scotland, Germany, Korea and Italy. The largest overseas order so far was a package of 200 letters which came from a person in Switzerland.

The bulk of the mail, however, comes from persons within the U. S. They're allowed to send from one to 5000 pieces each, and several have sent the maximum. Many winter vacationers make special trips to the village just to mail their holiday cards. Some have come back each year for

HANDLING THE TOWN'S MAJOR EXPORT: Postmistress Juanita Tucker accepts Christmas mail from two young residents.

the past two decades or more.

Along with the regular postmark goes a colorful special cachet, prized by stamp collectors. Designed by Postmistress Tucker, it is marked with a little green Christmas tree. Printed above the tree are the words of the very first Yuletide carol, "Glory to God in the Highest."

Most of the mail is stamped by machine. But letters from stamp collectors, to be dated ahead to Christmas, always are canceled by hand.

Though the climate seldom cooperates, Christmasites do their best to give their village the proper Yuletide appearance. The handful of business places are holiday-decked all year round. And a large community Christmas tree is one of the nation's most photographed spots.

But the town's unofficial "Mrs. Christmas"—Postmistress Tucker because of her job—does not fit the public's conception. A grandma at 47, she is five feet tall, 112 pounds, with dark brown hair and hazel eyes, and looks like a former beauty queen.

Her good friend, Amy Wilson, however, who runs the adjoining

gift shop, has beautiful snow white hair which fits the Christmas role perfectly. So they have a sort of a system.

"During my busy spell," Mrs. Tucker explains, "Amy entertains the public by answering all the questions, I work getting the mail out, and that way everyone's happy."

The hours are long and the work exciting, but the Postmistress loves every minute.

"This work gives me a chance," she says, "to bring both service and happiness to a great many people everywhere. I hear from hundreds of persons who are borne down with cares and burdens—just drawn by the town's magic name. They write me about their troubles, so I try to drop them some word of cheer as the days draw closer to Christmas."

When it's all over, she'll do as she does each year—sing in the choir at church, then hold a Yuletide dinner for her husband, children, granddaughter, in-laws and several friends—a dozen and a half or more altogether.

"After all," she observes, "what could be more appealing than spending your Christmas in Christmas. No matter how often you do it, the thrill never quite wears off."

## Edson In Washington

By PETER EDSON

(NEA Washington Correspondent) WASHINGTON—(NEA)—Secretary of State John Foster Dulles has just called attention to the rather surprising fact that U. S. government insurance guarantees to American business firms wanting to invest their capital abroad haven't worked too well.

The sad truth is that after four years' operations under this program, only 60 contracts have been made. They guarantee American investors in foreign enterprises against losses from expropriation and guarantee the conversion of foreign earnings and capital into U. S. dollars.

The total face value of the government guarantees on these 60 contracts is only \$48 million. How small this is can best be gauged by comparison with the total of U. S. private business investments abroad.

U. S. Department of Commerce puts the total book value of these investments at \$17 billion. This is an increase of \$10 billion in the eight years since the end of the World War II. The increase during the last two years has been \$1.5 billion annually.

EARNINGS FROM THESE FOREIGN investments have been \$2.2 billion annually, after payment of \$1 billion in taxes over the last four years. Over \$700 million of the net earnings each year have been reinvested abroad. And \$1.5 billion a year, on the average, has come back to the U. S. as clear profit, dividends and interest. All but two tenths of one per cent of this has been done practically without government guarantees of any kind.

Time after time it has been said by private business leaders, testifying before congressional committees, that if the government could guarantee against losses from expropriation and inability to convert earnings, the volume of U. S. investments abroad would boom. The inference has been that if the private enterprise system could do this job, huge government foreign air programs would be unnecessary.

These guarantees have now been available for the last four years, but there have been few takers. The natural question is, why?

Foreign Operations Administration officials in charge of this foreign investment insurance program are not discouraged by the results so far. They attribute the relatively small showing to natural delays in getting a new thing going.

BEFORE ANY CONTRACTS CAN BE made, it is necessary for the U. S. government to negotiate an agreement with each foreign country. Under this agreement the foreign government must promise to transfer to the U. S. government all assets of the American investor, in case there is expropriation or a refusal to let earnings or capital be taken out of the country.

So far, only 20 foreign countries have entered into these agreements. Fourteen are in Europe. The others are Formosa, Haiti, Israel, Japan, Philippines and Thailand. None is in Latin America—a most revealing fact in view of the wall these countries put up that the United States won't do anything to help them.

Last month FOA simplified its procedures for writing this insurance on foreign investments. With new practices in effect, as a result of its experience with the program thus far, Charles E. Houston, chief of the investment guarantee branch of FOA, expects a big pick-up in business next year.

Under the program, each American investor doing business abroad pays a premium of one half of one per cent on the face value of his contract. In the last four years over \$1 million in premiums have been paid to the government for guarantees. And there have been no losses. This is an important point in favor of continuing the investment guarantee program, whether FOA survives or not.

THE 69 U. S. COMPANIES that have participated in the program are widely diversified—automobiles and parts, chemicals and drugs, plastics, sewing machines, petroleum products, elevators, railroad equipment, construction machinery, building materials, hotels, home appliances, clocks and watches, soluble coffee and zippers.

Face value of the contracts from \$17,000 to \$14 million. This largest contract was with Standard Oil of New Jersey for petroleum refineries in Italy. Their premiums will average \$111,000 a year on estimated earnings of \$1 million a year for 12 years.

Blue-chip American companies that have seen fit to take out insurance on their new foreign subsidiary investments include Dow Chemical, Thomas A. Edison, Firestone, Ford, General Tire, Minneapolis-Honeywell, Singer, Morrison-Knudsen, Knott hotels.

Several U. S. companies like the program so well that they have taken out several insurance contracts on new enterprises. In this category are Otis Elevator, Mathieson Chemical for its E. R. Squibb division, Raytheon, Godfrey L. Cabot for carbon black and American Home Products for a variety of enterprises.

An explosion in a small Pennsylvania town has nearly wrecked the place—and the drinks were on the house.

A pessimist's idea of being happy is in appearing to be unhappy.

# England Enshrines Castle Where Jack Killed Giant

WASHINGTON—St. Michael's Mount, the historic British island where Jack the Giant-Killer got his start, is now a national shrine in England.

To preserve the fabled island that has lured pilgrims and tourists for centuries, Lord St. Levan presented his family's story-book castle and property to the National Trust, a British organization which maintains historic homes and buildings.

The 15th-century castle surmounts a pyramidal crag of slate and granite jutting 263 feet above sea level just off the coast of Cornwall, the National Geographic Society says. The island is connected to the mainland by a natural stone causeway which the sea covers at high tide.

**Fact and Legend**

The island is steeped in history. Its earliest days are the subject of disputed theories and speculation. Its legends are preserved in prose, poetry and song.

The most popular legend concerns Jack, a brave young Cornishman. According to the story handed down generation after generation, a wicked ogre named Cormoran lived on the mountain island. When he wasn't stealing farmers' sheep and oxen, he amused himself by playing pitch-and-toss with a neighbor on a hill several miles away. Local tradition says Jack dug a pit into which he lured the giant and chopped off his head.

Jack was so pleased with his first success, the story goes, that he set about ridding southwest England of many other tyrannical giants.

**Citadel of Romance**

The 21-acre island also was supposedly visited by the medieval lovers, Tristram and Isolde.

Honeymooners of today visit the castle to test still another legend. In a picturesque turret is a granite seat known as St. Michael's chair. Tradition holds that the bride or groom who sits in the chair first gains mastery of the house.

St. Michael's Mount was long revered as a holy place. In 1070, Edward the Confessor granted it as a priory to France's Mont St. Michel, famed prototype of the British island. Later it reverted to British control and continued to be a resort of pilgrims.

Eventually the island passed into secular ownership and its possession was disputed during the

Lancastrian and Parliamentary wars. It was sold to Col. John St. Aubyn, an ancestor of Lord St. Levan, in 1659.

Some scholars say St. Michael's Mount is the place where the ancient Phoenicians came to trade for tin. Others dispute it. One thing is certain: In more recent times, Cornish smugglers rolled ashore their barrels of rum in the peaceful cove sheltered by the lofty mountain.

## Folks With Glow Get Service At Atlanta

ALTANTA (AP)—A special safety cab plan for Atlantans who celebrate well but not wisely will go into effect Thursday and continue through the Christmas and New Year's holidays.

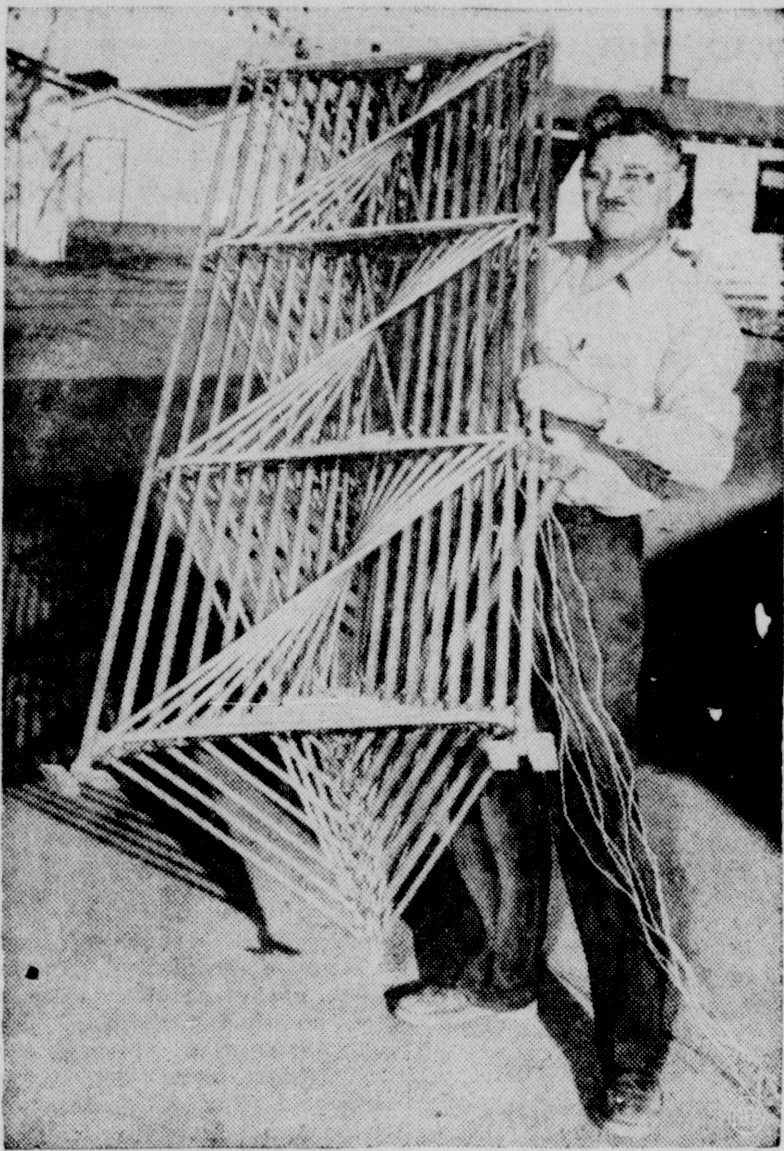

The plan works very simply. If you acquire a "glow" at a party, phone for a safety cab. The cab will arrive with two drivers, one to take you home and the other to drive your car.

Sponsors are the Greater Atlanta Traffic and Safety Council and the Yellow Cab Co.

## Group Promotes Peaceful Use Of Atomic Energy

DETROIT (AP)—A group of leading scientists, educators and industrialists have organized the Fund for Peaceful Atomic Development, Inc., to promote the peaceful use of atomic energy.

Walker L. Cislir, president of both the fund and the Detroit Edison Co., said Monday the non-profit organization is non-governmental and was formed to help carry out President Eisenhower's atom-for-peace plan.

"Whereas the President's international atomic plan contemplates arrangements between governments," said Cislir, "the fund's activities will emphasize people-to-people, industry-to-industry, and science-to-science cooperation on a worldwide basis."

**Mobilize Talent**  
Cislir added:  
"Only with a private organization supplementing the work of our government, can the available talent throughout the world be mobilized in a maximum effort to bring into reality the beneficial uses of the atom."

Cislir said the fund's first operations will consist of arranging a task force of leading industrialists, scientists and others from foreign countries to visit this country to survey unclassified aspects of both private and government efforts to harness the atom for peaceful uses.

He said the fund also will provide for an international clearing house for unclassified atomic information and will form scholarships for research and study in atomics.

**Ford Gives \$150,000**  
Detroit Edison, of which Cislir is president, was an original member of 25 companies which grouped forces as the Atomic Power Development Associates for nuclear power research and development for industry.

It was giving \$150,000 to the group for its work, half the money to become available immediately and the remainder over the next three years. Cislir said several other grants are expected.

The fund's other officers are William C. Foster, president of the Manufacturing Chemists' Assn. and former administrator of the Economic Cooperation Administration (ECA), vice president; Oscar M. Ruebhausen, chairman of the atomic energy committee of the New York City Bar Assn., secretary; and Joseph M. Dodge, special assistant to the President on foreign economic policy and former U. S. budget director, treasurer.

Directors include Paul G. Hoffman, chairman of the Studebaker-Packard Corp. and former chief of the Economic Cooperation Administration; and Prentiss M. Brown, former U. S. senator and chairman of the Detroit Edison Co.

## Hillsdale Father Of Three Killed By Truck Spark Blast

DETROIT (AP)—A Hillsdale truck driver was killed Monday night when his semi-trailer truck touched an automatic gasoline loading apparatus, setting off a spark that caused an explosion and fire.

Dead is 34-year-old Duane Craddock, father of three small girls. Craddock was backing the truck up to the loading dock at the Sun Oil Co. warehouse to load for a trip to Grand Rapids.

Police said the explosion blew Craddock from the cab, his clothes in flames, and he burned to death before he could be rescued.

Craddock was driving a truck owned by Eldon Watkins, Hillsdale gas and oil broker. Firemen estimated truck damages at \$18,000.

Ronald Baker, 27, of Flat Rock and Louise Sicilia, 26, of suburban Dearborn, who were operating the loading machine, were uninjured.

## Tooter Fined

DETROIT (AP)—Traffic Court Oscar Rippele Jr. fined Elmore Pike, 32, of Detroit, \$25 Monday because he used his auto horn as an alarm clock. Police said Pike tooted his horn eight times to arouse a share-the-ride-to-work friend who overslept.

## Novelist Hilton Taken By Death

LONG BEACH, Calif. (AP)—James Hilton, screenwriter and novelist who wrote such books as "Good-bye Mr. Chips" and "Lost Horizon," died Monday night in Seaside Hospital after a long illness. He was 54.

His former wife Alice, who had maintained a vigil for days, was still at the bedside.

Hilton had lived here in Long Beach for 10 years while writing for the movies.

He entered the hospital Nov. 21 suffering from an infection of the nature of which was not disclosed. Today his physician Dr. David Wigod said that he had had cancer of the liver for a long time.

Hilton was born Sept. 9, 1900, in Leigh, Lancashire, England. Shangri-la was a distant, misty utopia in Hilton's most famous novel, "Lost Horizon." The 1934 best-seller and the 1935 movie version, which Hilton came here to help film, had made the word famous the world over.

Hilton's search for his own peace and quiet brought him from England to Hollywood three times and continued through two unsuccessful marriages.

# The Coming Of Christ

--David

Selected by the Department of Worship and the Arts, National Council of Churches.

David Is Anointed by Samuel in the Presence of His Father and Brethren, from a French manuscript. "Scenes from the Old Testament", of the 13th Century. The Pierpont Morgan Library, New York.

"And the Lord said, 'Arise, anoint him; for this is he.' Then Samuel took the horn of oil, and anointed him in the midst of his brothers; and the Spirit of the Lord came mightily upon David from that day forward." (I Samuel 16:12f.)

In David, God established royal house of His chosen people, commanding Samuel to anoint him as a symbol of his kingship. David was considered to be a prefigure of the Messiah, who was to be his descendant and an earthly king in the line of David. But the prophets began to see that the triumph of this king was to be in his humility, and that he would find victory even in his rejection. Such a king was Christ, who was born in a stable rather than a palace, and made His triumphal entry into Jerusalem riding on an ass. "And the crowds that went before Him and that followed Him shouted, 'Hosanna to the Son of David! Blessed be he who comes in the name of the Lord! Hosanna in the highest!'" (Matthew 21:9) Next: The Prophet.

## Aged Apache Brave Dreams Of Battles

ISLETA PUEBLO, N. M. (AP)—Pablo Apache keeps looking for his uniform and waiting for his pension check—for service as a scout in the Indian wars and the Philippine Insurrection. Sometimes late at night, frail Pablo rouses his battle scarred body for a vain search of the room where he rests—too old and too sick to take much interest in other things. He is an Apache Indian.

Mrs. Phillip Lucero, his daughter, says Pablo's life is dimming after more than 100 years. He doesn't know his exact age.

He used to tell of battles against leaders of his people who had revolted against the whites. "He used to say Victorio was a great warrior," Mrs. Lucero recalls "Geronimo, one the other hand, was just a renegade outlaw."

"I believe he is entitled to an

Contract Bridge By Josephine Culbertson

**NOT GOOD ENOUGH**  
South did fairly well in the deal below, simply by taking the con-

West dealer.

The bidding:  
West North East South  
1♠ Pass 1♥ 1♠  
2NT Pass 3♥ 3♠  
4♥ 4♠ Pass Pass  
Dble. Pass Pass Pass

With the cards lying as they did, East could have made six hearts, but it is only fair to observe that even a five-heart contract was hard to reach in safety. East might have taken out West's double of four spades, but from his point of view that action was highly debatable.

West opened the king of clubs, saw dummy's singleton, and shifted to the ace and low trump. Dummy won and South ruffed a heart. He then cross-ruffed clubs and hearts until, with four cards left in all hands, dummy was reduced to one heart and three diamonds. Even though the diamond king could scarcely be right, considering the bidding, South had no choice but to try the finesse when East played the diamond eight, and the upshot was a one-trick defeat of the contract.

South was very unwise to get himself into a position where the

diamond finesse was vital. He was on solid ground when he ruffed three of dummy's hearts and two of his own clubs, but when he finally led the queen of clubs, and West covered with the ace, the right play (very obviously) was to let West win the trick while a diamond was discarded from the table. It was certainly unlikely that West had a fourth heart, and if he had to return a diamond or a club, declarer could claim the doubled contract.

**BERLIN** —The West German Red Cross has launched plans to move more than 100,000 Germans from Communist-held Poland to West Germany. The Polish government suspects the Germans might be the nucleus of an anti-Polish, anti-Communist fifth column.

**FORT WILLIAM, Scotland** —Five members of a royal navy recreation party attempting to scale Mt. Ben Nevis fell to their deaths from an icy 900-foot precipice Sunday. Ben Nevis, 4,406 feet in height, is the British Isles' highest mountain.

**OSAKA, Japan** — A heavily-loaded commuter train rammed

into the rear of a second one during a heavy fog Monday, injuring 87 passengers, 16 of them seriously.

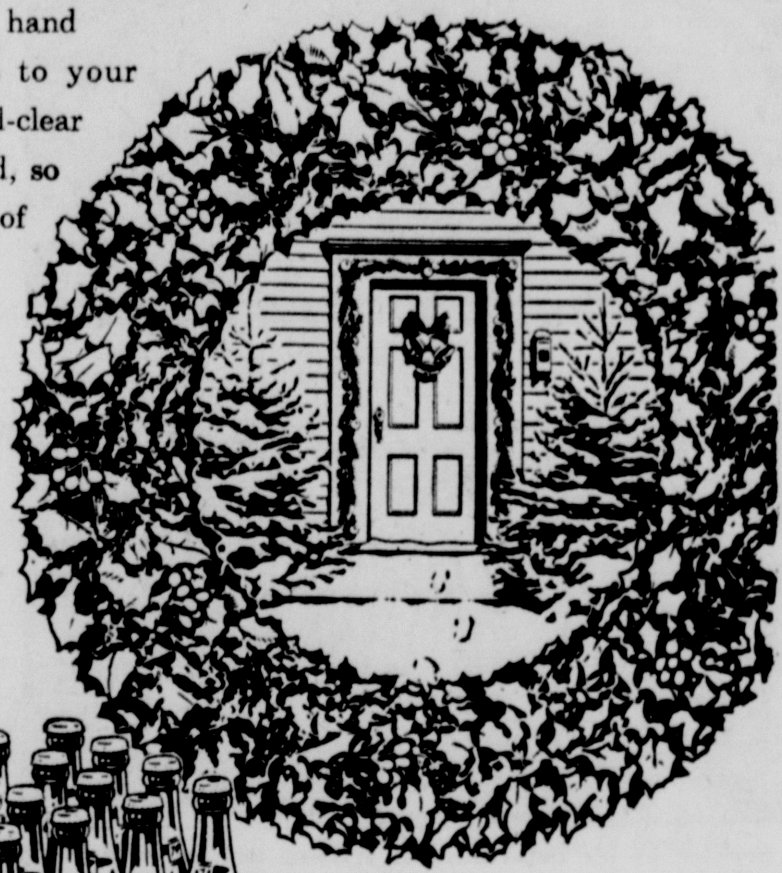

**TOKYO** —Japan's new government ruled Monday that this country's tiny army, navy and air force are legal under the new constitution which renounces war and the power to wage war.

Prime Minister Ichiro Hatoyama's Cabinet and the ruling Democratic party agreed that the token defense forces are below war potential and thus not in conflict with the constitution.

**MICROSCOPIC MEALS**  
Blue and fin whales, reaching lengths of 65 feet or more in two short years, feed exclusively on plankton, microscopic population of the seas they inhabit.

## Ford Fund Helps Nation's Schools

NEW YORK (AP) — The Ford Foundation's Fund for the Advancement of Education reported Sunday it had granted \$16,879,535 to educational institutions and agencies between 1952 and 1954.

The fund, established in 1951, was set up to alleviate the "critical shortage" of elementary and high school teachers in the United States and for the purpose of "fostering, encouraging and improving formal education."

In a 126-page report, the fund said more than 215,000 elementary and high school teachers are needed in this country for the 1954-55 school year.

The report said: "To meet this need our educational institutions have provided only about 53,000 teachers, leaving a deficit of 162,000."

The report added: "Our population increase and the drift of teachers into other occupations will continue to produce a large shortage each year of the coming decade."

## Hyde

**Christmas Party**

HYDE—A Christmas party was held recently in honor of Dean Blake, who is serving with the U. S. Navy and was spending his leave at the home of his parents, Mr. and Mrs. Albert Blake. Decorating the room was a lighted Christmas tree. Mrs. Blake served a lunch, and Dean received many gifts.

Guests attending included Mr. and Mrs. Hilding Olson, Mr. and Mrs. Ray Hilleges, Mr. and Mrs. Norval LaLonde and daughter, Marlene, and Mr. and Mrs. Robert Hall and children, Bark River; Mr. and Mrs. Frank Blake and Mr. and Mrs. Charles Dittrich, Escanaba, and Mr. and Mrs. Arthur Blake, Gladstone.

E. M. F. N. Dean C. Blake left via air for his base at Norfolk, Va., where he will board the battleship, New Jersey.

**Briefs**

Mr. and Mrs. Richard Temple and family of Norway visited with William Temple and at the home of Mr. and Mrs. Albert Blake.

A building bee was held for Leonard Kositzke Sunday afternoon. Cement blocks were laid for the basement. Mrs. Kositzke served a lunch.

Mr. and Mrs. John Pepin accompanied by Mr. and Mrs. Bruce Scoggins of Watson left for Texas where they will visit with Mrs. Scoggins' parents and with relatives and friends.

## Red Propaganda Fails In Japan

TOKYO (AP)—Chinese Communist propaganda broadcasts to Japan are listened to by only one per cent of the nation's radio owners, says the Metropolitan Police Department.

It said the Communists were "frantically" trying to get more listeners. Peiping radio has switched frequencies and has toned down some of its anti-American and anti-Japanese government propaganda, which aroused antagonism in Japan.

WORK WAS STARTED recently on construction of winches for raising and lowering the Indian Lake Property Owners dam gates on the Indian River, at the bridge on M-94. Both gates have been constructed by members of the group and one already is in place. The concrete and timber structure is designed to control water level in Indian Lake. In the above picture, Roy Nelson, Alger Ave., is welding for the winches, and assisting are Agner Dehlin, Chris Johnson and Jack Burgraff. The association, which has over 100 members, began work on the project, which will cost over \$2500, this summer. Later they plan to channel the stream and construct scenic parks along the river, at the bridge location. (Daily Press Photo)

## Nativity Mass Will Be Sung At Holy Rosary Church

Midnight Mass at Holy Rosary church in Grand Marais will be sung by the Rev. George Pernaski, pastor, beginning at 12 Friday night.

## Christmas Music Special Feature At Rotary Party

A program of Christmas music, both instrumental and vocal, highlighted the Christmas party of the Manistique Rotary club Monday noon at the Elks Temple.

During the dinner, Carl Olson, violinist, played several numbers, with Mrs. Ray LaMarche accompanying. These included Christmas carols, Bizet's "Agnus Dei," several popular numbers and selections by Irving Berlin.

A recently organized octet from the Manistique Woman's Club, directed and accompanied by Mrs. Arthur Hall, also presented Christmas music. Their numbers were "The Shepherd's Song," "Lo, How a Rose E're Blooming" and "Christmas Bells."

Singing in the group were Mrs. E. J. Thompson, Mrs. Elmer Lundstrom, Mrs. Edward Jackson, Mrs. Charles Slinging Jr., Mrs. Scott Creighton, Mrs. D. M. Creegan, Mrs. A. B. Bernier and Mrs. Don MacLean.

Tom Belitho was program chairman for the party. Following the musical selections, members exchanged children's toys, which will be donated for the welfare department's Christmas baskets.

At the next Rotary meeting, John Lemmer of Escanaba will be the principal speaker.

## Motorist Pleads Guilty To Liquor Charge Monday

Alton Boatwright, 38, of Detroit, pleaded guilty in Justice court Monday to a charge of driving a car while under the influence of liquor and was levied fine of \$50 and court costs of \$4, with alternative of 30 days in jail.

His driver's license also was suspended for 90 days.

Boatwright, who had not paid the justice court assessment as of Monday night, was apprehended by Manistique State police Dec. 17.

Healthy babies have been born to mothers as young as six years, and as old as 62.

## Wisconsin Priest Will Offer Midnight Mass At Germfask

The Rev. John McCloskey, O. Praem, of West DePere, Wis., will celebrate the Midnight Mass at St. Theresa church in Gulliver Friday night, the Rev. George Pernaski, pastor, announces.

The mass will begin at 12, with George and Daniel Rutherford serving and Harold Miller and William Rutherford as acolytes.

Beginning at 11:30 p. m., the Senior Choir, directed by Mrs. P. J. Brow will sing Christmas carols and at 11:50 p. m., a procession to the crib will be accompanied by Sleep Holy Babe sung by the Boys' Choir.

The Gregorian Chant Mass of the Angels will be sung by the Senior choir and the Offertory hymn will be the traditional Adeste Fideles. Mrs. P. J. Brown will be the organist.

The Boys' Choir consists of Thomas Ruthven, William Rutherford, Donald Ruthven, Harold Miller, Dwight Rutherford, Kenneth Rutherford, Joseph Amorea and Robert Amore. In the Senior Choir are Mrs. Alois Miller, Mrs. Glen Losey Jr., Dawn Tovey and Rita Mae Boyd.

Ushers for the midnight services will be John Rutherford and Clyde Tobin. Collections at both the midnight service and the 9 a. m. mass on Christmas will be for orphans of the diocese, Father Pernaski states.

Mass at St. Theresa church Sunday, Dec. 26, will be at 9 a. m., instead of 8.

## Bruce Neddow Is New Police Officer Here

A new police officer, to replace Lloyd Gray on the Manistique city police force, began duties Monday. He is Bruce Lee Neddow, 26, of 448 N. Houghton Ave.

The new officer is a 1947 graduate of Manistique High School and since 1948 was employed as a railroad brakeman by Inland Lime and Stone Company, except for four years spent in the army. While in service, he spent three years in Germany.

Gray, who has been on the force here since June 1, 1947, was elected sheriff in November and will begin his duties Jan. 1.

No man has a good enough memory to be a successful liar.

Shingleton Sunday night.

The Junior Boy's Sunday School class accompanied Rev. Byers and Henry Weinert Saturday afternoon to get a Christmas tree for the church. They met at the church Monday evening to rehearse the program and decorate the tree.

Mrs. Ed Lewis will accompany Rev. and Mrs. Byers to Cloverland Lodge Tuesday evening, when gifts will be presented during the evening service.

## Special Music Is Planned For Zion Lutheran Service

A Christmas candlelight service will be held at Zion Lutheran church on Christmas Eve, Friday, beginning at 11 p. m., the Rev. Noah M. Inbody, pastor, announces.

Featured during the service will be special Christmas music by the church choir, under direction of Mrs. James H. Fyvie, and by Carl Olson, violinist.

Several numbers, including Angel's Serenade, O Lord Most Holy and a medley of Christmas carols, will be played by Mr. Olson, preceding the service. The choir will open the service singing O Come, O Come Immanuel, a capella, from the north exit of the church.

The choir then will march in candlelight procession singing Come Hither, Ye Faithful. During the service, Mr. Olson will play Handel's Messiah and the choir will sing Rejoice All Men by John Niles and While Shepherds Watched, by Jungst-Kach.

The church will be illuminated with candlelight during the service. Regular worship form will be used with Christmas Introits and a special prayer will be offered for those serving in the armed forces.

## Christmas Eve Services Planned At Redeemer Church

A candlelight Christmas Eve Service will be conducted at the Presbyterian Church of the Redeemer beginning at 8:45 p. m., Friday, the Rev. Alan S. Miller, minister announces.

Miss Jean Carlson will sing a special Christmas number during the service of carols and candles. The public is invited.

## Winter Arrives Early Wednesday

ANN ARBOR (AP) — If you get out of bed early enough Wednesday morning, you might see winter move in. You might even see the Christmas star.

Winter begins on the calendar at 4:25 a. m. (EST) Wednesday, Dec. 22. For the weather man it began some time ago.

It may be a little more difficult to stay awake tomorrow too, since there will be 15 hours of darkness and only nine hours of light.

All of this rather unhappy information comes from Associate Prof. Hazel M. Losh of the University of Michigan's astronomy department.

Furthermore, Prof. Losh explains, you may have some difficulty figuring which star is the Star of Bethlehem. Early writings and calendars gave incomplete and uncertain information about the star.

Today's astronomers can only guess. Some believe the star may actually have been a configuration of some of the bright planets, giving the appearance of a brilliant star.

Venus, called the morning star now, reaches its peak of brightness today. This morning it rose three hours before the sun. Mars, orange in color, is now in the constellation Aquarius in the southern sky.

Jupiter, Prof. Losh says, rises at 8 p. m. (EST) and is in the northeast in the constellation Gemini below Castor and Pollux. Other beautiful December stars are the yellow Capella, the orange Aldebaran and the red Betelgeuse.

## Mrs. Lundstrom Is Honored On 80th Birthday

Mrs. Sophia Lundstrom, 111 Fourth Ave. N., was honored at a party Saturday afternoon at the home of Mrs. John Strand, her daughter, given in celebration of Mrs. Lundstrom's 80th birthday anniversary.

About 35 women friends of Mrs. Lundstrom were present and the time was spent pleasantly in singing Christmas carols and hearing Christmas readings.

A luncheon was served at a table centered by an attractively iced birthday cake. A Christmas motif was used effectively in decorating for the occasion.

## Pro Fighter Trains Marquette Mitt Team For Gloves Tourney

A 29-year-old professional fighter who got his start in the Upper Peninsula Golden Gloves tournament in Escanaba back in 1942 has taken over the coaching reins of the Marquette boxing team.

Pat Murphy, who has battled such name fighters as Johnny Bratton, Luther Rawlings, Glenn Flannagan, Corky Gonzales and many other top-notch featherweights and lightweights, has returned to Marquette to coach the National Guard boxing team that will fight in the Golden Gloves tournament here Jan. 31 and Feb. 7.

Murphy's ring career that started in Escanaba 13 years ago has taken him all over the country. The slim, confident Irishman has fought headline bouts in such spots as Milwaukee, Chicago, Detroit, Denver, St. Louis, Minneapolis, Omaha and Cleveland.

### 16-Man Team

A native of Marquette, Murphy is employed as a guard at Marquette Prison and is busy rounding up 16 fighters into shape for the tournament here.

"We've got a swell turnout of boxers and some of the boys look very good considering their lack of experience," the veteran ringman says. "A couple of the boys look like open division fighters already and they haven't even had a real bout yet," he adds.

Murphy is currently making plans for an afternoon bout to be staged at the prison in the near future. He hopes to have an eight-bout card featuring Marquette fighters against boxers from Escanaba and Menominee.

## Kuenn Named Soph Of Year

MILWAUKEE (P)—Harvey Kuenn, baseball's 1954 sophomore-of-the-year, says it was a bat "that felt like it was made of iron" that broke his batting slump last summer.

Kuenn not only broke the slump, he hexed the second jinx and added to his sensational freshman season which saw him named rookie of the year in the American League in 1953.

The 24-year-old bonus prize shortstop of the Detroit Tigers, who hails from Milwaukee, was named to The Associated Press award today in a poll of sports writers and sportscasters throughout the nation.

Kuenn, a right-handed batting baseball star at the University of Wisconsin, polled 205 votes to 55 for second place Ruben Gomez, youthful pitcher for the New York Giants. Gomez, as a result, gets the National League vote.

## Rookie Frank Selvy Keeps Scoring Lead

NEW YORK (P)—Rookie Frank Selvy of the Milwaukee Hawks held his scoring lead in the National Basketball Assn. today—but only by a margin of 14 points.

The Boston Celtics' veteran Bob Cousy was second with 509 points in 24 games for an average of 21.2. Selvy's 523 points gives him a per game rate of 21.8, also in 24 games.

Dolph Schayes of the Syracuse Nationals has 478 points followed closely by Boston's Easy Ed Macaulay with 476 and Bob Pettit with 468 for the Hawks.

Larry Foust of the Fort Wayne Pistons continued to pace the field goal percentage leaders with 50.9 per cent accuracy.

## Eskymo Junior Cage Teams Win And Lose

Escanaba Junior High basketball teams split in two games with Stephenson quints last night.

Jack Lindstrom paced the Eskey 8th grade team to a 38-29 victory. Stephenson's LeRoy led his mates to a 44-41 9th grade win. Jim Allen of Escanaba paced the Eskymos with 12.

## Top Two College Cage Quints Ready To Duel

(By The Associated Press)

Headed by a near-championship duel between Kentucky and Utah, the No. 1 and 2 teams in the country, 7 of the top 10 college basketball teams are scheduled for action on a widespread front tonight.

Kentucky and Utah, both undefeated, meet in the second annual University of Kentucky Invitational Tournament. Other fireworks will be forthcoming from Oklahoma City, scene of the 19th annual All-College Tournament, which opened Monday, and at Houston, Tex., New York City and Dayton, Ohio.

In the Lexington affair, LaSalle, No. 1 until beaten by Utah last week, plays Southern California, ranked No. 13 nationally, in the opener. LaSalle dropped to No. 4 this week. Kentucky, with a 3-0 record, and Utah, 7-0, meet in the headliner. The winners play Wednesday night for the title.

### Wyoming Edged

Other top games tonight include Illinois (No. 3) vs. Rice at Houston, North Carolina State (No. 5) against St. John's of Brooklyn at Madison Square Garden, Oregon at Dayton (No. 6) and George Washington (No. 8) against Tulsa in the Oklahoma City tourney.

The first of the major Christmas week tournaments, at Oklahoma City, saw George Washington an easy 56-46 winner over Oklahoma A&M, the defending champions, and 11 times winner of the tourney, Tulsa, edged Wyoming 69-64.

## Alumni Will Face Crusaders In Wednesday Night Game; All-Time Scoring Champ Kutches In Lineup

One of the greatest athletes in the history of St. Joseph High School will be featured in the Alumni team lineup when the Holy Name Crusaders play a regularly scheduled game at the new gym Wednesday night at 8.

Pete Kutches, greatest basketball scorer in St. Joe history, will grace the Alumni team lineup. Now a junior at Wyoming University at Laramie, Kutches was one of the most prolific scorers to play basketball in the Upper Peninsula.

In his senior year at St. Joe, Kutches scored 473 points in his regular 16 games for an average of 29.56 points per start. In four tournament games he boosted his total to 588 for a total-season average of 29.4. Both averages are still Upper Peninsula records.

1,171 Career Total  
Kutches first appeared on the St. Joe basketball scene as a freshman, scoring 20 points that year. In his sophomore year he built his output to 229. As a junior he scored 334 and his 588 points in his senior year gave him a career total of 1,171 points.

Also a football and baseball star at St. Joe, Kutches was honored as an All-U. P. and All-State selection after his senior year in

## Wolverines Break Scoring Record

DENVER (P)—University of Michigan, with five players in the double figure point-making ranks and all-around superiority, set a Denver fieldhouse scoring record Monday night in licking the Pioneers 104-77.

It was Michigan's third basketball victory in four starts and Denver's second loss in five. Michigan encountered little trouble except for Dick Brott, who sank 33 points for Denver. Tom Jorgenson topped the Wolverine scoring with 21.

The Wolverines led 47-31 at half-time. Michigan scored 38 of 91 shots from the field for a 41.7.

## East-West Coaches Are Confident Of Good Game

SAN FRANCISCO (P)—The coaches played their usual coy game today as they herded their charges into training camps for the East-West Shrine football game on 1. Neither Holy Cross' lean Eddie Anderson, coach of the East, nor California's roly-poly Lynn (Pappy) Waldorf, would post a prediction beyond a "good game."

But Anderson, a Notre Dame great back in the days of George Gipp, was so confident that Notre Dame's Ralph Guglielmi could mesh a winning T-formation attack quickly that he's even thinking of tapering off the workouts at University of Santa Clara after the first three strenuous two-a-days.

Pappy is so pleased with having both the nation's No. 1 passer, his own quarterback Paul Larson, and the No. 2, Oregon's quarterback, George Shaw, that he's even toying with the idea of making one a

PETE KUTCHES

back. He was named to play in the annual North-South All-American high school game that year in Murray, Ky.

Kutches has not played basketball at Wyoming but is a valuable member of the Cowboy backfield where he alternates at a tailback position with a pair of brilliant sophomore stars.

### Ex-Trojan Captains

With Kutches on the Alumni team, to be coached Wednesday night by Fr. Stephen Schneider, are a host of former star athletes at St. Joe. Among them are Jack Miron, Jim Gravelle, Jerry McDonough and Don Paulin, all captains of Trojan teams, and Bill Maycunich, Bob Rademacher, Jim Zimmerman, Dick Cass, David

halfback and using them together. Those two, teamed up with Dick Moege, Rice's hurricane runner, and Washington State's Duke Washington at fullback, would form a fearsome four behind such great linemen as UCLA's 214-pound tackle Jack Ellena and Texas's 220-pound Buck Lansford.

But Minnesota's Bernie Bierman, who is on the East side for the 16th year, this time as an advisor, wants it known that the Gophers' fullback Bob McNamara is almost a football team in himself.

With Guglielmi, McNamara and such others as Michigan State's LeRoy Bolden and Notre Dame's Joe Heap in the backfield behind a line heavily studded with Big Ten brilliants, it's small wonder that Anderson can say:

"We're in better shape than last year. Our quarterbacks are a little better. The game may go either way, but we think we can win."

## Kentucky Is Rated Top College Team

By THE ASSOCIATED PRESS

Kentucky was ranked as the No. 1 basketball team in the nation today in the weekly Associated Press poll and if the Wildcats can get past this week's action, they'll be hard to displace.

Adolph Rupp's team boasts a 3-0 record and hasn't been beaten since the last game of the 1951-52 season. The Wildcats didn't field a team the following year and they were undefeated for 1953-54. They're running their own tournament this week and they go into action against three pretenders to their lofty perch—Utah, ranked No. 2; LaSalle, which was in first

place in the first poll last week; and Southern California, possibly the class of the Pacific Coast Conference.

LaSalle tumbled to fourth following its defeat at the hands of Utah at Madison Square Garden last Saturday.

## Rose Bowl Practice In Summer Weather

LOS ANGELES (P)—The Ohio State Buckeyes and Southern California Trojans hit the Rose Bowl game practice fields today in more summer weather, with about 80 degrees forecast.

The warm weather Monday enabled pass-throwers Dave Leggett and John Borton to toss 'em all over the place to ends Dean Dugger, Dick Brubaker and Bill Michael and halfbacks Bob Watkins and Howard Cassaday.

Fullback Hubert Bobo, nursing a twisted knee, ran 'round and 'round the inside of the track, staying on the turf. Coach Woody Hayes urged him to keep going, running or walking, to prevent the knee from stiffening.

Coach Jess Hill, too, is closely watching an injured knee—one belonging to halfback Lindon Crow.

# Willie Mays Is Named Male Athlete Of Year

The Associated Press  
Willie Mays, the sensational, young centerfielder who led the New York Giants to a pennant and World Series sweep in his first full year in the major leagues, today was selected as the "Male Athlete of the Year" for 1954 in The Associated Press year-end poll.

The 23-year-old batting and fielding phenom beat out miracle miler Roger Bannister of England by 35 points for the honor in the AP's 24th annual poll of sports writers and sportscasters.

The "say hey" kid, winner of the National League's batting championship and chosen as the league's most valuable player, received 38 first place votes from the panel of 122, and 185 points on a basis of three points for first, two for second and one for a third place vote.

**Broke Mile Barrier**  
Bannister, the tall, slender, 25-year-old intern who first broke the four-minute mile barrier in May and then roared from behind to edge Australia's John Landy in the "Mile of the Century" in August, received 36 1/2 first place votes and a total of 150 points.

In third place came Landy with 7 1/2 first place votes and 60 points. The Australian followed Bannister's monumental short-lived 3:59.4 world record with a spectacular 3:58 performance in Turku, Finland, June 21.

## North Squad To Elect Captains

MIAMI (AP)—The North squad will elect co-captains today for the North-South charity football game in the Orange Bowl Christmas night and coach Ivy Williamson of Wisconsin announced drills will be cut to one a day.

"They're shaping up fine," the North squad mentor said after Monday's second workout.

Late arrivals included Charles Kubek, tackle, and James Soltan, end, both of Minnesota.

Williamson used Duncan McDonald of Michigan, Florian Helinski of Indiana, and Tom Gastall of Boston University as passers while receivers included Bob Long and Bob Heydenfeldt of UCLA, Tom Braatz of Marquette, Louis Matykievich of Iowa and Soltan.

Short passes also went to Norman, Rex Brock of Purdue, Ron Yonkers of Penn State, Bert Zagers of Michigan State.

The South squad, under coach Andy Gustafson of Miami and coach Jim Tatum of Maryland, picked Kurt Burris, Oklahoma center and linebacker, and Carl Garigus of Miami as co-captains for the Shrine charity game.

## Uncle Sam To Give And Take With Bears

CHICAGO (AP)—Uncle Sam is going to play give and take with the Chicago Bears next month.

Owner-coach George Halas announced Monday that rookie quarterback Zeke Bratkowski will enter the Air Force next month.

Halas also said former Notre Dame star Bob Williams, who played with the Bears in 1951 and 1952, will be discharged from the Navy shortly after New Year's Day.

Bratkowski reached stardom this year when he took over quarterbacking duties from the injured George Blanda and led the Bears to four straight victories.

## Japanese Raise Frogs For American Markets

WASHINGTON—Frogs' legs, most of them frozen stiff, take a long leap nowadays to reach American dinner tables.

Many a marketed frog begins as a tadpole in a Japanese hatchery pond, fattens on a rice-paddy frog farm, is quick-frozen in Osaka or Nagoya, and crosses the Pacific by refrigerator ship. Others croak their last in backwaters of Cuba and Mexico.

Meanwhile, frogging no longer ranks as much of a business in the United States, the National Geographic Society reports. From marshes rimming the Great Lakes to Louisiana's bayou country and Florida's Everglades, the big bullfrogs harrumph in relative safety. Prosperity has lured their hunters elsewhere.

### Farming for Frogs

It's hard work, and not too much money, accumulating a bagful of frogs by flashlight and pronged gig or whacking paddle. In southern swamps there is always the chance of meeting an alligator on home grounds, to say nothing of voracious mosquitoes.

Japan is the only country in the world where frog farming has been a financial success. It has solved the problem of providing enough food-on-the-wing, for one of a frog's idiosyncrasies is its utter scorn for motionless food. The prey must move for a frog to see it.

Japanese frog farmers burn

glaring lights over their paddies at night, attracting clouds of insects. As the moths and beetles tire and flutter too close to the water, the quick-tongued frogs are waiting. During daylight, banks of flowers along the paddies draw more insect food. Shallow trays loaded with silkworm cocoons also are floated on the frog-stocked fields; when the trays rock, the frogs snap up the moving pupae.

In the 1930's, a frog farming fad swept the United States, spurred by promoters who sold "breeding stock" by mail. The boom fizzled when buyers found that frogs will not multiply in just any pond.

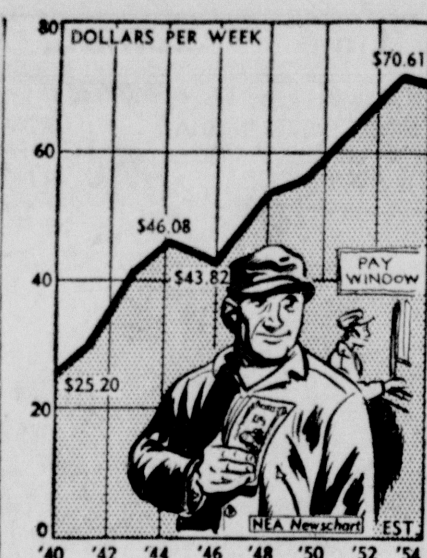

### Frog Capital

Rayne, Louisiana, the only town in the United States with a carload rate for frog shipments, once claimed to be the world's frog capital. One company there, collecting wild frogs caught by Cajun swamp hunters, gave the State a greater output than all France. But in recent years, Louisiana has marketed less than a tenth the weight of imported frogs and frogs' legs.

A good many American frogs—jumbo bullfrogs, medium-sized green frogs, and the beautifully spotted leopard frogs—undoubtedly still are caught and sold locally, ending as crisp brown zig-zag drumsticks in a frying pan.

However, the Fish and Wildlife Service records that only 167,000 pounds of frogs were marketed from all reporting States in 1952, the last year of record. In 1953, by comparison, 1,268,000 pounds of frogs were imported, more than half from Japan.

Many home-grown frogs probably find their way to medical schools and biology classrooms, where the spring-legged Romeos of the lily pads are important subjects for dissection and study.

**PAY DIP**—Average weekly earnings of factory workers dipped to \$70.61 during 1954, after hitting an all-time high of \$71.69 in 1953. Above Newschart shows average weekly earnings of production workers from 1940 to the present. Data compiled by Council of Economic Advisors.

### Shingles Roof With Tin Cans

SAWYER, Okla. (AP)—T. F. Stinnett, a life-long do-it-yourself exponent has shingled the roof and sides of his home and all his farm buildings with tin cans!

Stinnett said he used 18,000 quart motor oil cans for the project. He collected the discarded cans at service stations. They are processed into tin plate shingles in assembly-line fashion. A can opener-like gadget removes the top and bottom. The can is then split down the side, and pressed flat.

Stinnett says his roof, covered 11 years ago, is a good as ever. He says he likes the cheerful appearance of his "tin can village." The only expenditure was for nails—one for each can.

Late in the Middle Ages it was believed that eating of lions' brains would cause madness.

### Last 4 Miles Sinks Sailor On Trip Home

BOSTON (AP)—James Cahill, 24, a sailor from Winthrop, came all the way from the West Coast to spend Christmas at home for the first time in four years.

As he headed for a subway station for the last four miles to his home, he was struck by a motorist, who failed to stop after the accident.

Cahill, attached to the USS Rendova, an aircraft carrier, was taken to City Hospital with internal injuries and a fractured left leg. Later, he was transferred to the naval hospital in Chelsea, where doctors said they didn't think he could be released to be home for Christmas.

### Kids Start Machine Experts Couldn't

INDIANAPOLIS (AP)—Workmen left a street sweeper standing on a street in suburban Lawrence because they couldn't start it. But along came 7-year-old William Decker and he had no trouble.

The big machine rumbled toward a group of playing children and young Decker fell off, fracturing his jaw and nose.

Mrs. Norma Lavelly, 27, jumped aboard and steered the machine away from the children. A man jumped on and stopped the engine.

And Mrs. Lavelly was expecting a baby in three weeks.

The Dead Sea contains 23 to 25 per cent of salt compared with 4 to 6 per cent in the ocean.
